

# PROGRAMME LIST 2025

# WELCOME TO OPAIC

Recognising the demand for education tailored specifically to international students, in 2012 Otago Polytechnic partnered with Future Skills and opened the Auckland International Campus (OPAIC).

OPAIC is a leader in quality, career-focused education. Employers love our work-ready, motivated and confident graduates.

Our campus has everything students need to succeed. We are located in a modern building on Queen Street, right in the heart of the main shopping and business area.

We have excellent facilities, including computer labs, a Student Hub where you can socialise between classes or meet with support staff, and a whole floor dedicated to extra academic support.

# STUDY APPLIED MANAGEMENT

Our range of programmes opens you up to a variety of career paths. You'll learn current industry best-practice and gain vital practical experience through hands-on, project-based learning. You will graduate highly-capable, focused on solutions, and ready for the industry.

# STUDY CONSTRUCTION

Qualified construction professionals are in high demand in New Zealand. We've developed our construction programmes in consultation with employers, industry and professional bodies to ensure you learn the skills that give you the advantage. You will graduate highly-competent and industry-ready. You'll be sought-after by employers.

## New Zealand Diploma in Construction (Construction Management) or (Quantity Surveying)

-  Level 6
-  April, July, October
-  Two years
-  26,000 (first year)

## Bachelor of Construction (Quantity Surveying) or (Site Management)

-  Level 7
-  April, July, October
-  Three years
-  \$26,000 (first year)

"I received an interview application from a contracting construction company the day after I graduated."

Chun (Simon) Song got a job interview with a construction company the day after he completed his Bachelor of Construction with us and is now working as an Earthwork Site Manager.

OPAIC appealed to him because of its learning environment and its location in the city centre.

Simon says there's good money to be made in the construction industry, but students must first work hard to develop their knowledge and skills.

He says OPAIC has given him a great platform to start his career.

# STUDY FOUNDATION

Gain the academic skills, capabilities, knowledge, and attributes needed to succeed in higher-level education.

## New Zealand Certificate in Study and Employment Pathways (Level 4)

 Level 4

 July, October

 Six months

 \$13,000

“The best things about studying at OPAIC were the enriching learning experiences and the strong social support provided by the institution.”

Master of Applied Management graduate Jacelyn Santiago found fulfilment and purpose in her international study journey through the many opportunities offered inside and outside the classroom at OPAIC.

Jacelyn says OPAIC organised various activities that allowed her to explore the country and immerse herself in its culture, such as trips to Muriwai, hiking on Rangitoto Island, and opportunities for volunteering with organisations including the Cancer Society.

She says she also appreciated the diversity of her classmates, which added a unique and valuable dimension to her Master's studies.

# STUDY INFORMATION TECHNOLOGY

You'll learn specialist skills allowing you to work in a range of exciting roles that offer great financial reward and growth. Our programmes are current to ensure you are at the head of the IT industry and ready to make a real impact in the world. You will graduate solution-orientated, a design-thinker and future-focused.

## Graduate Diploma in Information Technology

-  Level 7
-  February, April, July, October
-  One year
-  \$26,000

## Bachelor of Information Technology

-  Level 7
-  February, April, July, October
-  Three years
-  \$26,000 (first year)

“We got a lot of hands-on experience and built a lot of projects for our assignments.”

Erica Novianti loved the small class sizes and hands-on approach offered by OPAIC.

She completed her Bachelor of Information Technology with us and was one of our top-performing students.

Erica liked the small class sizes here, which allowed students to easily interact with lecturers and one another. She could even approach lecturers outside of class time with questions and they were happy to help.

# Our services outside the classroom

## Student Success

Our Student Success Team can provide advice and assistance on any issue, big or small, that comes up for students. This could be course-related, work-related, or personal. The team also organises orientation, graduation and other campus activities and events.

## Employability

Our vision is to develop New Zealand's most employable international graduates. Our Employability Team helps make students' transitions into the workforce as smooth as possible. They help with CVs and offer workshops, networking events, drop-in sessions, and one-on-one support. Staff also help students from certain courses find an organisation to work for during their industry placements.

## Learning Support

The Learning Support Team can help with academic issues you face during your time with us. We have a learning support advisor and peer tutors who know about the courses you are studying.

They can help you with academic writing and referencing, English language assistance, and personalised study plans.
