

How to access the Telus Health Portal

The first time you access the portal, you'll be presented with the login screen and an advisory on how cookies are managed. You can choose to **allow essential cookies only** or **allow all cookies** (either will work).

Login info

Enter your OP staff email address – username@op.ac.nz. You'll be redirected to sign into the OP system.

Download the **TELUS Health One** app

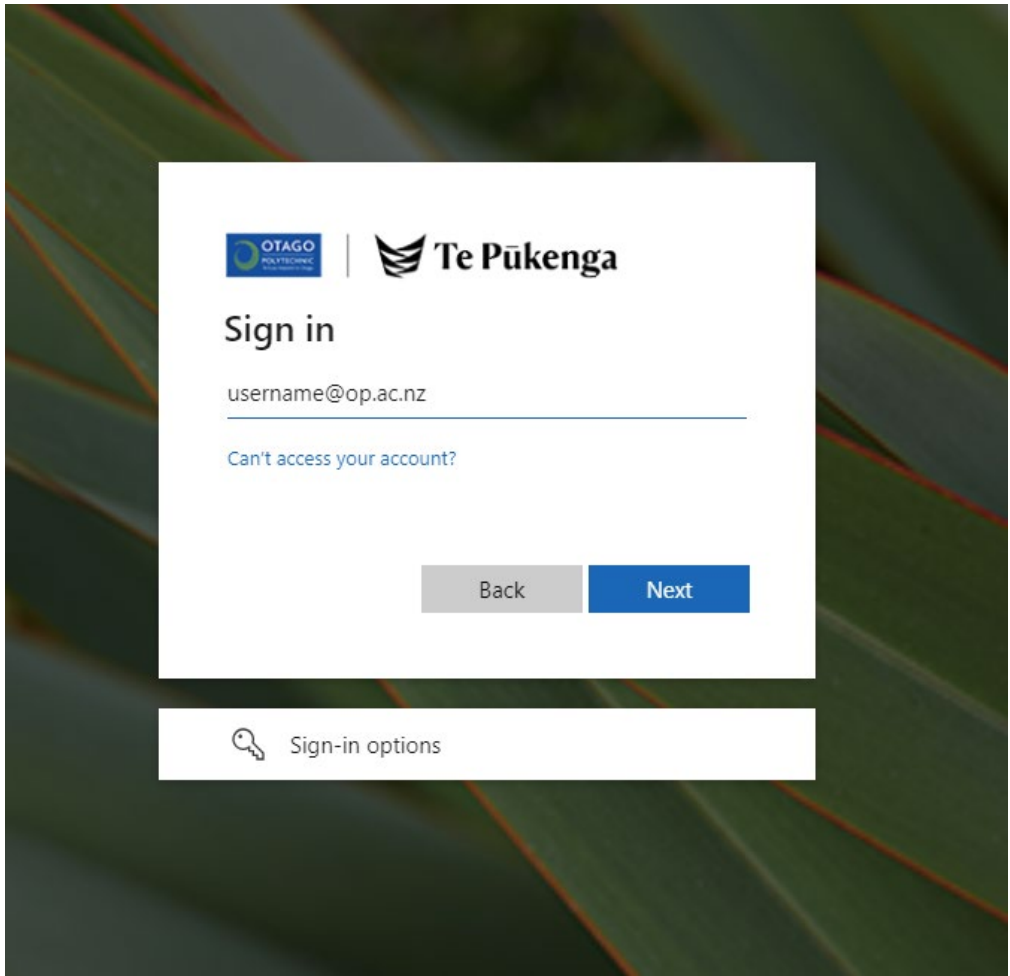

Use your credentials to log in on your mobile.

 **TELUS** Health One

Please wait, you will now be redirected to the **Otago Polytechnic - Te Pukenga** website to complete your login.

If you are not redirected after 5 seconds, please click on the button below.

Let's Go 

The first time you log in, your account will be created on the Telus Health platform. After that, the sign in experience will differ depending on the device used (OP provided or personal), the web browser used and if you are on or off campus.

For example, a staff member using an OP device on campus through Chrome or Edge won't have to enter their account information, they'll be automatically signed in. A staff member using a personal device at home will need to sign in via the OP login system.
