

New Zealand Certificate in Automotive Electrical Engineering (Level 4)

Email autotrades@op.ac.nz to find out how to apply.

Fee: Free study during 2022 - normally \$962 (\$274 per year)

Due to the Government's Targeted Training and Apprenticeship Fund (TTAF).

- You will still need to pay for any additional course-related costs such as protective footwear (see additional costs section below).

This programme is studied part-time over several years. TTAF will only cover your study during 2022. However, you may be eligible for some additional tuition fees cover under the under the [Government's Fees Free](#) scheme. See more info in the [Paying for your study](#) section below.

This programme is not available for international students.

Location	Dunedin or Central Otago
Duration	Three and a half years part-time
Delivery	You will be expected to attend a weekly night class, additional one-week block courses, and to undertake some self-directed study in conjunction with your apprenticeship

Credits	190
Level	4
Start	Anytime
Apply	Anytime - contact autotrades@op.ac.nz

Build on the skills and knowledge you gained in the [New Zealand Certificate in Automotive Engineering \(Level 3\)](#).

This qualification is ideal for learners who are starting, or already doing, an apprenticeship in the workplace.

During this programme, you will learn how to safely and effectively diagnose and repair electrical and electronics faults in a range of vehicles.

Plus, you'll be able to study for free due to the Government's Trades Training and Apprenticeship Fund.
