Want to gain a firm grasp of IT foundation skills?

The IT industry may be constantly evolving, but one thing is certain - it is definitely here to stay - and this programme will enable you to gain knowledge of the industry.

Learn about a variety of topics within the computer field, acquire essential skills towards becoming an IT professional and take the opportunity to explore and establish an understanding of a range of computer concepts.

Computing skills are now fundamental life skills and there are currently far more IT-related jobs than there are graduates. Employers are desperate for individuals with a good awareness of the industry and a willingness to continue developing new skills. IT is a global industry and the right qualification will create a whole world of opportunities for you. With further study, career possibilities are diverse and include business computing, network administration, technical support, hardware, software, database, web development and much more.

You can study this programme at our Dunedin Campus or [online via eCampus](#).
