## Certificate in Professional Practice for Registered Nurses

Are you a New Zealand registered nurse who requires a Competency Assessment Programme to obtain a current Annual Practising Certificate?

Gain the most up-to-date skills and knowledge required to be part of a healthcare team in New Zealand during this theoretical and applied programme. Successful completion of a Competency Assessment Programme enables you to demonstrate your ability to meet the Nursing Council of New Zealand Competencies for the registered nurse (2007). The theory courses within this programme may also be used for professional development purposes and you may enrol in one or both of these. Successful completion enables the nurse to demonstrate their ability to meet the Nursing Council of New Zealand competencies as a Registered Nurse scope of practice.
