**Successful completion of this advanced programme will enable you to confidently engage with research and its application across a range of disciplines within the business information systems context.**

Graduates of this qualification are critical thinkers, effective problem solvers, future-focused and apply specialised management and leadership knowledge and capabilities to new situations within the field of business information systems.

Business information systems occupations are projected to grow rapidly over the next ten years leading to an increasing need for information systems professionals. There is also an increasing demand for those professionals to hold higher level qualifications.

This Master offers you three pathway options: Coursework, Professional Project and Coursework, or Research Thesis. Within the programme, you will also

have the opportunity to attend employability workshops, industry and guest speaker events.

It will prepare you for further postgraduate study or alternatively, you could seek employment in a range of roles including:

- Business Analyst
- Business Intelligence Analyst
- Information Systems Analyst
- Information Systems Security Analyst
- Project Manager
- Technical/Solution Architect
- User Experience / Front End Designer
- Information Systems Researcher

This programme is offered by Future Skills Academy due to a sub-contract arrangement with Otago Polytechnic.
